Mode	Share
UPI	55%
Card	20%
Wallet	15%

Mode	Share
COD	10%

Business Assumptions

- Weekend demand is higher than weekdays.
- Dinner hours generate the maximum order volume.
- High-demand SKUs (Milk, Bread, Eggs, Fruits) are more likely to go out of stock.
- Some dark stores consistently perform better than others.
- Inventory variance increases when order volume is high.
